## Docker CLI Installation

### Step 1: install Docker Desktop

The screenshot shows a web browser window with multiple tabs. The active tab is 'docs.docker.com/desktop/install/windows-install/'. The page content includes a navigation bar with 'docker docs' and a search bar. The main content area is titled 'Install on Windows' and contains a 'Docker Desktop terms' section, a 'Welcome to Docker Desktop for Windows' message, and a 'Download Docker Desktop for Windows' button. A sidebar on the left lists various installation guides. A 'System requirements' section is partially visible at the bottom. A cookie consent banner is at the very bottom of the page.

Browser tabs: [Request Received], [Email Delivery, AI], [Inbox (1,442) - 50], [IBM], [Download file], [IBM-Project-549], [Install Docker Desktop]

URL: docs.docker.com/desktop/install/windows-install/

Navigation: Home, Guides, Manuals, Reference, Samples, Contribute

Breadcrumbs: / Manuals / Docker Desktop / Install Docker Desktop / Install on Windows

Left Sidebar:

- Understand permission requirements for Mac
- Install on Windows**
- Understand permission requirements for Windows
- Install on Apple silicon
- Install on Linux
- Installation per Linux distro
- Quick Start Guide and sign in
- Explore Docker Desktop
- Change settings
- Troubleshoot and diagnose
- Additional resources

Main Content:

### Docker Desktop terms

Commercial use of Docker Desktop in larger enterprises (more than 250 employees OR more than \$10 million USD in annual revenue) requires a paid subscription.

Welcome to Docker Desktop for Windows. This page contains information about Docker Desktop for Windows system requirements, download URL, instructions to install and update Docker Desktop for Windows.

### Download Docker Desktop for Windows
